Experience

University of Texas at Austin

Aug 2025 – Present

UI/UX Designer

- Led UX strategy and shipped the end-to-end redesign for UT Sage, an AI-powered tutoring platform serving 2,000+ users, defining interaction patterns for LLM-driven experiences across web and mobile interfaces.
- Designed and maintained a 25+ component design system in Figma from scratch, integrating TailwindCSS primitives and design tokens while ensuring WCAG 2.2 accessibility compliance.
- Collaborated cross-functionally with engineers using ShadCN component architecture and CursorAI to accelerate prototyping and maintain design-to-code consistency.
- Conducted mixed-methods user research with students and faculty, translating qualitative insights into iterative product and system-level UX improvements.

Visa Inc.

May 2022 – Jun 2024

Associate Design Engineer, Design Systems

- Led architecture and frontend implementation of the Visa Product Design System React library (@visa/nova-react), redesigning it into a scalable, composable system adopted by 20+ global product teams.
- Implemented 40+ components and 10 hooks from the ground up, establishing TypeScript and bring-your-own-state patterns across the library.
- Contributed Rollup and Webpack build pipelines (CJS/ESM) with aggressive tree shaking, cutting bundle sizes by 80%.
- Partnered with designers to implement components from Figma with pixel-perfect parity; achieved full WCAG 2.2 accessibility compliance across all components.
- Produced comprehensive documentation, hosting office hours for cross-functional support, and maintaining legacy components during transition to ensure continuity. Reduced end-user onboarding time by 50% and improved user satisfaction.
- Developed extensive **unit** and **integration tests** across all components using **Jest** and **React Testing Library**, achieving >90% coverage and strengthening production stability by reducing regression risk.

MANN HUMMEL USA Inc.

Aug 2021 – May 2022

Frontend Engineer Intern

- Built a React and TypeScript web application integrating the MS Graph API, enabling leadership to visualize and edit KPI charts via RESTful API – replacing a SharePoint dependency and improving team efficiency by 50%.
- Created Power BI dashboards for financial monitoring, surfacing over 1M invoice discrepancies.

Featured Projects

UT Sage Faculty Evaluation Tool

Spring 2026 •Capstone

- Conducted stakeholder research and interviewed 4 faculty members to surface pain points around AI transparency and tutor configuration.
- Designed onboarding flows using **Figma** to help faculty build mental models of AI systems, improving comprehension of explainable AI for non-technical users.
- Translated AI evaluation frameworks into UX requirements and contextual interface designs in **Figma** with **Claude** that surface tutor performance issues and improve system transparency.

Education

University of Texas at Austin

Aug 2024 – May 2026
GPA: 3.94/4.0

M.S. Information Studies – HCI and UX Design

North Carolina State University

Aug 2017 – May 2021
GPA: 3.44/4.0 (Dean's List)

B.S. Computer Science, Minor in Art and Design

Skills

Design & UX Accessibility (WCAG 2.2), Data Visualization, Design Systems, Heuristic Evaluation, Interaction Design, Usability Testing, User Research, User-Centered Design, Visual Design

Languages C, C++, C#, HTML/CSS, Java, JavaScript, Python, SQL, TypeScript

Frameworks Angular, Astro, AWS, Azure, Django, Docker, Express.js, MongoDB, MySQL, Next.js, Node.js, PostgreSQL, React, REST APIs, ShadCN, TailwindCSS, Vite, Webpack

Design Tools Adobe Suite (After Effects, Illustrator, Photoshop, XD), Figma, FigJam, Framer, Miro, Mural

Dev Tools Accessibility Insights, Bitbucket, ClaudeCode, CursorAI, GitHub, Jenkins, NPM, PNPM, VS Code
